Business Performance That Fits On T

For today's small office or workgroup environments, efficient document management is a daily challenge. Who really has time to manage multiple pieces of office equipment? Who has the time to learn how to use a variety of machines? Well now, you don't have to devote precious time to mundane office tasks – the Savinfax 3820 does it all: Super G3 faxing, convenience copying, printing and full color scanning.

Fax with Confidence

With the Savinfax 3820, you'll speed through daily fax activities with ease, thanks to an array of features that automate routine fax tasks.

Get outbound fax jobs off to a quick start when you scan up to 50 pages – using the 3820's standard Automatic Document Feeder – in as little as 1.5 seconds per page.

A 50-sheet Automatic Document Feeder makes swift work of scanning and storing multi-page outgoing faxes.

Once scanned, the 3820's 33.6 Kbps Super G3 modem quickly transmits important business communications to their destination.

Store frequently used fax numbers and recall them at the touch of a key, which eliminates the need for manual dialing.

Print incoming faxes at a swift 17 ppm, which means that crucial fax documents reach their recipients without delay.

Don't worry about missing important fax receptions in the event your Savinfax 3820 runs out of paper. A generous 250 sheet paper capacity – which can be upgraded with an additional 250 sheet tray – combines with a large memory capacity to ensure that you receive every incoming fax – either on paper immediately or into memory. And, a 72 Hour Battery Backup function means that you won't lose stored documents in the event of a power loss.

The Multifunctional Advantage

In addition to a great fax, you'll also get a great printer, full color TWAIN scanner and convenience copier too! Just connect the Savinfax 3820 to your PC via a standard parallel or USB port and get started right away – everything you need is already included.

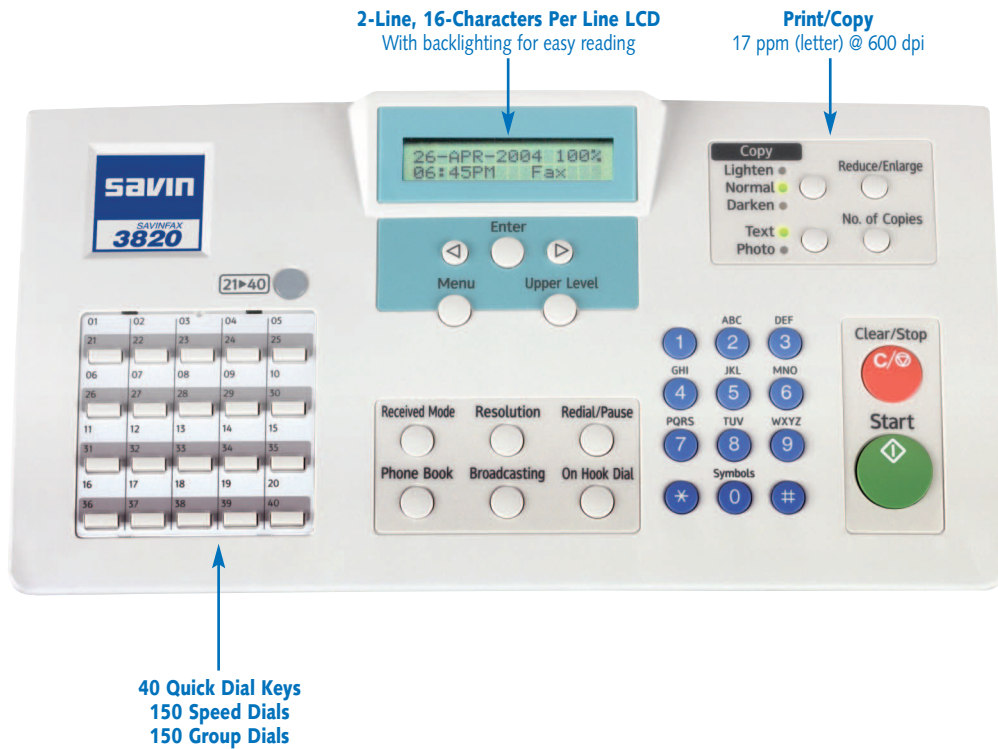

Scan full color images – photos, drawings, charts and diagrams – directly to your PC, edit them using common image editing applications, then incorporate those images into your electronic files... a great way to punch up sales proposals or Microsoft PowerPoint® presentations.

Print documents at a swift 17 ppm. You'll save time and, at up to 600 dpi resolution, your business documents will always present a professional appearance.

Need a quick copy? Use your Savinfax 3820 to efficiently output up to 99 copies of an original. You can even reduce and enlarge originals to fit your specific storage, mailing or faxing requirements.

he Desktop.

Easy To Use Control Panel

Increase user productivity and eliminate the need to purchase, learn how to operate and maintain separate pieces of office equipment. Plus, the All-in-One Cartridge design simplifies routine maintenance tasks and eliminates the need to purchase – and inventory – separate supply items.

A Smart Acquisition

With the Savinfax 3820, your small office or workgroup gains a valuable business partner – one that will increase productivity, save valuable office space, and fit nicely on your bottom line.

For more information contact your authorized Savin dealer.

Scan images directly to your PC with full color TWAIN scanning.

You can even print on envelopes through the Savinfax 3820's bypass feed.

Purchasing and storing separate consumable items is a thing of the past with the convenient All-in-One Cartridge.

Standard USB 2.0 and parallel ports make connecting to your computer quick and easy.
