

Savin SR90

BOOKLETMAKER

The On-Line
or Off-Line
Solution for the
Savin 4090/40105

SR90 Bookletmaker

savin®

The On-Line or Off-Line Solution!

Professional-quality booklets can now be produced easily and reliably, when you combine the versatility of the Savin 90 and 105 page per minute Digital Imaging Systems with the high-performance SR90 Bookletmaker.

On-Line Bookletmaking

With the SR90 Bookletmaker connected to the Savin 4090/40105, you have a true production powerhouse! The system produces multiple sets of professionally folded and saddle stitched booklets. The SR90 gives you sharp, precise folding and exact stapling – with staples that lay flat – so you can be sure of accurate output.

The optional TR90 Face Trimmer will trim your booklets, giving you the ultimate finishing touch by eliminating the stepping effect that occurs when you fold multiple sheets.

Automatic Creation Of Booklets

Producing booklets used to be a complex and time-consuming process. With the Savin 4090/40105 systems, professional booklets can be created automatically on-line or off-line utilizing the fully automated Magazine Mode. Place your originals in the Document Feeder, select Magazine Mode on the 4090/40105 control panel – or from your desktop using the print driver – and the system will do the rest.

Two-Way Communication

The SR90 Bookletmaker communicates with the Savin 4090/40105 to make sure that each job runs smoothly. When you set up a job, it automatically adjusts to the paper size. And if a misfeed happens to occur, you're directed to the right place to get the job running as quickly as possible.

Either On-Line Or Off-Line

To increase your productivity, the SR90 can also be rolled off-line and used as a stand-alone Bookletmaker, while the Savin 4090/40105 is producing other jobs requiring standard finishing, such as 2- or 3-hole punching and 4-position stapling. Connecting and disconnecting the SR90 Bookletmaker is easy.

Optimal Performance

By adding the SR90 Bookletmaker, you can now accommodate a wide range of applications such as newsletters, publications, reports, manuals, brochures, information folders, guide books and magazines plus a myriad of other uses. You can truly optimize the performance and production demands of your Print-for-Pay or Central Reprographic Department with the SR90 Bookletmaker from Savin!

Creating Professionally Finished Booklets Has Never Been Easier.

For more information on the SR90 Bookletmaker, contact your authorized Savin sales location.
