# Your High-Speed, Low- For Connectivity, Print Quality

If you need an output system with the endurance of a marathon runner and speed of a sprinter, the Savin 3360DNP Digital Duplicator is the only choice for you. It offers the benefits of a sophisticated copier in a machine designed specifically for extended print runs.

## Powerful In Any Setting

The Savin 3360DNP's fast, economical performance and crisp output revolutionize print production for religious & charitable organizations, medical, legal & insurance organizations, government agencies and print-for-pay businesses. At a blazing 120-page-per-minute speed, a 1,000 print run is ready in under 10 minutes and produces documents in your color choice at a cost-per-print that's unmatched by toner-based copiers and laser printers.

## Superb Reliability/Quality

The Savin 3360DNP offers reliability with every single throughput pass.

- **Savin's offset-quality cylinder** provides a larger paper press point, ensuring more solid fill; a Paper Clamp Mechanism firmly holds paper for superior imprint accuracy and registration; friction pad technology provides separation resistance to avoid double feeding; an enhanced air suction method eliminates paper wrapping and ensures smooth intake of all stock thicknesses.
- A new **Ink Delivery System** offers 400-dpi output resolution for sharper edges on type and headlines plus more defined halftones. High-density inks offer ultra-fast dry time with no ink set-off.

- Choose from 10 off-the-shelf colors or unlimited custom match PMS inks, to add spot color to any document. **Tint Mode** allows the shade of *each* ink color to be adjusted, expanding your color palette.

- **Letter and Photo Modes** facilitate sharper printing of documents combining text and pasted photographs. The new **Pencil Mode** enhances duplication of lightly-toned originals.

## Clean and Easy

The 3360DNP has a single master cylinder for a self-loading master process, and ink cartridges that load and remove quickly and neatly. The Master Disposal System is fully enclosed. The 3360DNP alerts you when it's full — just slide out the cartridge, discard the used masters and replace.

## Optional Network Connectivity

With the optional **Type 80 Controller** you can print from virtually any connected Windows, Macintosh or networked operating system. The *true* PostScript® 3 embedded controller gives users a vast control and ripping performance. It also offers real-time access to information like paper settings, misfeed alerts, job history and security features, and workflow management with other Savin digital products on your local area network thanks to **SmartNetMonitor**, an advanced printer management solution.

## Versatile Paper Handling

The 3360DNP seamlessly handles originals and a paper supply ranging from 3" x 5" all the way up to 12" x 17" in size, and accepts paper types from 13 lb. bond to 110 lb. index stock.

- **Book Copying** is made easy, producing quality prints from bound originals up to 11" x 17". Ingenious depth-of-field technology provides clear copies from paste-ups without secondary shadowing.
- **Auto Margin Erase Mode** removes the typical outer-edge shadowing that appears when scanning from bound originals. The 3360DNP automatically detects and erases shadows for sharp, clear copies from even the bulkiest of originals.

# Cost Solution Quality & Productivity

## Productivity-Driven Features

So many valuable features are packed into the compact Savin 3360DNP Digital Duplicator:

- **Automatic Document Feeder** recognizes your original's size and cuts the master material to the most efficient size, saving up to 33% of the cost of masters.
- **Auto Magnification** detects an original size then enlarges or reduces your image to the size of paper you're using.
- **Auto Rotation** matches scanned images to the direction of the blank paper in the feed tray. Images are automatically scanned and rotated for effort-free production.

- **Two originals can be combined** two-up...and a single original can be placed four-up without having to use any additional editing function.
- An industry-first **Job Separator** mechanically separates jobs by offsetting the top sheet of each preceding job.
- **Customized default settings** such as Minimum Quantity and Auto Cycle On/Off further your flexibility.
- On-board **Stamping** can automatically imprint various items including date, pagination and preset text such as "preliminary", "priority" or "confidential".

The Savin 3360DNP... the only way to go for impressive spot color, speed and cost savings on long print runs.

## Production Plus with the TC-II

If you're looking for even more high-volume print production options, check out the Savin TC-II Digital Production Printer...which works in conjunction with the 3360DNP to maximize productivity with the world's first two color in one pass duplicator reproduction.

The optional TC-II has two inline cylinder chambers that accept the 3360DNP's color cylinders. Because it has no scanner or master-making capabilities, it relies on the 3360DNP to produce two separate masters that transfer to the TC-II for increased printing productivity. The TC-II offers super-accurate registration on two-color output printing at a lightning-fast 120 pages per minute, providing time- and cost-efficiency for your most critical multi-color jobs.

# Savin 3360DNP

- > fast two-color output
- > exceptional image clarity
- > network connectivity

## SPECIFICATIONS

<b>Configuration</b>	Desktop
<b>Master Processing</b>	Fully integrated digital stencil duplicator
<b>Scan Resolution</b>	400 dpi
<b>Print Resolution</b>	400 dpi
<b>Printing Process</b>	Dual cylinder system, paper clamp system
<b>Image Scanning</b>	CCD with lens
<b>Reduction Ratios</b>	93%, 77%, 74%, 65%
<b>Enlargement Ratios</b>	155%, 129%, 121%
<b>Zoom</b>	50% – 200% in 1% increments
<b>Image Mode</b>	Letter, Photo, Letter/Photo Auto Separation
<b>Original Sizes</b>	3" x 5" min. to 12" x 17" max.
<b>Paper Sizes</b>	2.8" x 5.8" to 12.8" x 17.6"
<b>Image Area</b>	11.4" x 16.5"
<b>Paper Weights</b>	12.5 lb. Bond to 110 lb. Index
<b>Paper Handling System</b>	Paper roller and clamp mechanism
<b>Print Speeds</b>	60, 75, 90, 105 or 120 ppm
<b>Master Process Time</b>	12 seconds
<b>Paper Feed Tray Capacity</b>	1,000 sheets
<b>Paper Delivery Table Capacity</b>	1,000 sheets
<b>Optional ADF Original Capacity</b>	50 sheets
<b>Weight</b>	213.9 lbs.
<b>Power Source</b>	120V, 60Hz, 3.2A
<b>Power Consumption</b>	Approx. 260 W
<b>Dimensions (WxDxH)</b>	56" x 26" x 23"
<b>Pixel Density</b>	400 dpi
<b>Print Counter</b>	9,999,999
<b>Master Counter</b>	999,999 SP mode
<b>Noise Emission</b>	60 dB
<b>Masters</b>	245 L-size sheets per roll 410 S-size sheets per roll
<b>Master Run Length</b>	More than 2,000 impressions
<b>Master Disposal Capacity</b>	65 to 100

## STANDARD FEATURES

No-Waste Confidential Mode  
 No-Waste Quality Start Mode  
 Ink Blade Distribution Control  
 Electronic Vertical/Lateral Registration  
 Digitally Controlled PF Settings  
 8-Page Storage and Recall Memory  
 Dual PF Friction Pad System  
 Skip Feed Mode  
 User Code Audit Mode  
 Economy Mode  
 Image Overlay  
 Tint Mode  
 Directional Magnification  
 Auto Image Rotation  
 Two Up Mode  
 Multi-Copy Modes (2, 4, 8, 16 in 1)  
 Auto Separation, Line/Photo Mode  
 Auto Paper Size Detection  
 Auto Original Size Detection  
 Auto Background Correction  
 User Program Mode  
 Photo Mode  
 Editing  
 Class Mode (9 grades x 18 classes memory)  
 Status Sheet Printout  
 SP Mode  
 "L" & "S" Auto-Cut Master  
 Shadow/Edges/Center Erase  
 Stamping Mode  
 Tapeless Job Separator  
 Auto Contrast Control  
 I/O Service Mode

## OPTIONAL EQUIPMENT

DF-85 50-Page ADF  
 TC-II Digital Production Printer  
 Base Cabinet  
 Color Cylinders  
 3360DNP Ink Choices (Standard and custom PMS)  
 Type 80 Print Controller, UC6 Print Controller, UC5 or UC5e Print Controller
